Impact on Property Taxes

The impact of this budget on the tax rate is related to other revenues, appropriations and the tax assessment. If all other factors remained constant and the new construction equaled the projection for building permits, there would be no increase in tax rates. A better measure is the tax commitment, which is the total amount the City needs to raise by property taxes to make up the difference between other revenues and appropriations. If all other factors remained constant the tax commitment would be down about \$30,000.

Revenues

Revenues remain a challenge in this economic environment. The biggest unknown is what change will occur as a result of revenue shortfalls at the state level. There could be reductions in the currently approved levels of state revenues to schools and communities. If this occurs the Council will need to make a decision how to handle that situation at that time. The situation warrants continual monitoring, but this budget proceeds based upon status of the approved state budget.

Use of Fund Balance

This budget uses the same amount of fund balance as FY-10. Fund balance is important for several reasons, one of which is to help through a crisis. The current economy certainly qualifies as one. However we need to balance use of the fund with the cost of any slippage in our Moody's bond rating. Slipping one grade with Moody's could cost us an estimated \$1,000,000 in additional interest on every \$10,000,000 borrowed. There are other reasons to maintain adequate reserves, including adequate cash flow and increased interest on investments. I note that it will also become ever more difficult to produce surpluses at the end of each year as budgets are squeezed tighter and tighter year after year.

Employees

Employees are one of the City's most important resources. For that reason I felt it crucial to bring this budget in without forcing any employees out of a job. While there are no new positions or programs proposed in this budget, neither are there any lay-offs. Over the years the City has invested a great deal in our current employees. The training and years of experience of our employees are crucial to the City's role as a service organization. Also there is no money for raises for employees other than those required by collective bargaining agreements and related labor laws.

Expenditures

The proposed City budget is increased slightly. The largest increases in spending are in the Police Department and Fire Department, due to personnel costs, especially health insurance and state retirement costs. Another large increase in spending is for the county budget.

Most departments/categories recognized reduced levels of spending or only marginal increases. Welfare continues to exceed expectations with reduced spending for direct assistance.

The following chart details the major City General Fund budget changes.

While it is recommended that the City work on developing a system to cash fund capital projects (or pay as you go approach) and reduce our reliance on debt, admittedly it is ever more difficult to move in that direction considering the regional and national economic turmoil and the budget constraints the City is under.

April 11, 2010

Each year the City faces a new set of budget challenges. While FY-11 and future years will also be difficult, I look forward to working with the Council to review all departments and services and make specific recommendations. I extend a sincere thank-you to all Department Heads and their staffs for their work on the very difficult budget.

Sincerely,

Engineering funded in FY'10

2. Business Office-Mail Folder Inserter	\$5,000 (Cash)
Current mail folder inserter machine is six years old and experiencing frequent jams and breakdowns. Usage has increased substantially.
