<div align="center">**Colonial Pines Sewer Extension – Phase 2**

Project Update

<u>**Week of November 18 – November 22**</u></div>

Upcoming Work

Water System

Water work is not anticipated.

Sewer Work

Contractor crews will be installing service connections (to the property line) on Tingley Street (from Wildwood to Hillside).

Private Property Sewer Work

Contractor crews will begin private property sewer service connections this week on Birch, Juniper, and Towle Street. The contractor will be coordinating with residents for the proposed work.

Road Work

Contractor crews will be doing roadwork repairs this week within the project area.

Project Clean-up

Scheduled for Friday afternoon.

Water Service Interruption

Field personnel will notify residents prior to interrupting the water service.

Traffic Patterns

Road Closures: Tingley Street (from Wildwood to Hillside). Please also note that although road work will be occurring on other streets within the neighborhood, roads will still be open and passable.

Parking: We ask that residents <u>do not</u> park vehicles on Tingley Street (from Wildwood to Hillside) between 7:00am and 6:00pm during the work week. **We also ask that residents <u>do not</u> park on the other project area roads in anticipation of road work.**

General Notes

Neighborhood residents are requested to have patience with construction activities and temporary water service interruptions. Inclement weather may cause contractor unanticipated delays and last-minute changes in work plans.

Resident Inspector Keith Noyes will be continuing to have meetings with residents to review new sewer service connections and provide home owners with estimates for the work to be done. Residents that have not contacted Keith Noyes @ 603-507-0024 to arrange an appointment to meet should do so as soon as possible.

If you have any questions or concerns, please contact Timothy Goldthwaite, P.E., Assistant City Engineer at 509-1907.

COLONIAL PINES SEWER EXTENSION – PHASE 2 PROJECT AREA

Anticipated Work Zone:

- Sewer service construction

As noted above, road work will be occurring on Wednesday throughout the project area.
