Dover, NH 03820

Re: Minor 3-lot subdivision Case# 222 – 59-1 – HC – 22

Dear Applicant:

This is to inform you that the Rochester Planning Board at its August 8, 2022 meeting **APPROVED** your application as referenced above.

"Applicant", herein, refers to the property owner, business owner, individual(s), or organization submitting this application and to his/her/its agents, successors, and assigns.

Precedent Conditions [Office use only. Date certified: _____; Plan recorded? _____;]

All of the precedent conditions below must be met by the applicant, at the expense of the applicant, prior to the plans being certified by the Planning Department. Certification of the plans is required prior to issuance of a building permit or recording of any plans. Once these precedent conditions are met and the plans are certified the approval is considered final.

*Please note** If all of the precedent conditions are not met within 6 calendar months to the day of the board's approval – by February 8, 2023 - the board's approval will be considered to have lapsed and resubmission of the application will be required. It is the sole responsibility of the applicant (or his/her agent) to ensure that these conditions are met by this deadline. We urge the applicant to carefully track his/her progress in meeting the individual conditions. See RSA 674:39 on vesting.

- 1) **Plan modifications.** The plan drawings are to be modified as follows:
 - a. The access for lot 222-59-3 shall not be taken from Route 125 (Milton Rd.) due to not meeting the required separation distance from Norway Plains Road. Please amend.

- b. Lot access onto Norway Plains Road shall not be within 100' of the intersection of Norway Plains Rd and Route 125. Please amend.
 - c. Lot 59-3 driveway needs to be 200-ft from Norway Plains Rd (centerline-to-centerline) which does not appear to be possible, therefore, access for lot 222-59-3 will require a shared driveway on lot 222-59-2. Please amend.
 - d. The access for lot 222-59-1 shall be 75' or greater from the access of 222-59-2, measured centerline to centerline. Please amend.
- 2) Plan notes. Add the following notes (or equivalent) to the plan drawings: none.
 - 3) State plane coordinates. The plans are to be tied into the State Plane Coordinate System.
 - 4) Inspections. In accordance with RSA 676:4-b the applicant must sign the Construction Inspection Services Agreement and make a cash deposit to cover the expected costs of inspections, in an amount that is determined by the Public Works Department. The amount in the fund is an estimate and additional funds may be required depending upon complexity and quality of work. The inspections will be conducted by the City of Rochester Public Works Department or its designee, such as a 3rd party inspection firm. The applicant must pay for inspections – at an hourly rate as determined by the Public Works Department, or based upon 3rd party inspection firm hourly rates – of the site, including all new infrastructure serving the site.
 - 5) Access for lot 222-59-3 will require a shared driveway on lot 222-59-2. Please provide draft easement documents for the shared driveway to the Planning Department.
 - 6) Final Drawings. (a) four sets of large black-line plus (b) one set of 11" x 17" final approved site plan drawings plus (c) one electronic version by pdf or flash drive must be on file with the City. *Each individual sheet in every set of drawings must be stamped and signed by the land surveyor, engineer, or architect responsible for the site plans.* (The applicant need only submit additional black-line sets of drawings or individual sheets, as needed, to make five complete sets – consult the Planning Department). At the discretion of the Planning Department minor changes to drawings (as required in the precedent conditions, above) may be marked by hand. Note: If there are significant changes to made to the plans, as specified above, one full size paper check print must be sent to the Planning Department for review prior to producing these final drawings. Once the plan is recorded at the Registry of Deeds, submit two 11x17 recorded copies of the plan. Assessing will need an 11x17 recorded copy of the plan.
 - 7) Recording. The plat, this notice of decision (per RSA 676:3 III), and deed (a deed is required if the lots are owned by two separate parties or if one lot is sold prior to recording of this plat) must be recorded together at the Strafford County Registry of Deeds within six calendar months to the date the plat is certified (e.g. if certified September 9th they must be recorded by March 9th). See RSA 478:1-a regarding plat requirements. Failure to comply with this requirement herein shall render the lot line adjustment null and void.

General and Subsequent Conditions

All of the conditions below are attached to this approval.

1. Wetland buffer areas shall not be impacted by any construction activities. Wetland buffers shall be marked with construction tape on trees or wooden stakes prior to any onsite activity, and such markers shall be maintained throughout construction. Wetland Buffers shall be marked with Conservation Overlay District tags prior to CO's for homes (available for a nominal fee at the Rochester Planning Office), and such markers shall be maintained in perpetuity.

2. A Surveyor is to submit a signed letter to the Planning Department stating that the new lot corner monuments have been set (Subdivision Regulation 6.1) for the subdivided lot with the homestead and that reference pins have been set on all easement bounds (Subdivision Regulation 5.7.4).
3. Backflow prevention device permits will be required for domestic and fire service lines. At the time of the building permit submittal the applicant shall apply for the required backflow prevention device permits thru the Department of Public Works. The applicant is to provide adequate information such as but not limited to plumbing plans/schematics, design flow calculations and equipment cut-sheets with respect to facility operations as it relates to domestic water use, fire suppression system type, irrigation and any intended need for process water. The Department of Public Works will determine hazard classification for all proposed devices related to cross-connection control. Prior to the Certificate of Occupancy, inspections and passing test results of all backflow prevention devices related to cross-connection control are required.
4. Other permits. All required State and Federal permits must be obtained – including any Driveway/Curb Cut permit, Water Service Connection Permit, Drainage Permit, Cross Connection Control Permit, etc., as appropriate – with copies of permits or confirmation of approvals delivered to the Planning Department.

Development on the subdivided lots beyond 5,000 SF will require a Stormwater Permit from DPW per Ch 218 Stormwater Management and Erosion Control ordinance.

5. Execution. The project must be built and executed exactly as specified in the approved application unless changes are approved by the City.
6. Approvals. All of the documentation submitted in the application package by the applicant and any requirements imposed by other agencies are part of this approval unless otherwise updated, revised, clarified in some manner, or superseded in full or in part. In the case of conflicting information between documents, the most recent documentation and this notice herein shall generally be determining.
7. Violations. In the event of any violations of these conditions of approval or of any pertinent local, state, or federal laws – such as those regarding erosion and sedimentation control, wetlands, stormwater management, and general site development standards – the City of Rochester reserves the right to take any appropriate permissible action, including, but not limited to, withholding of building permits, withholding of certificates of occupancy, withholding of driveway permits, revocations of permits/approvals, referring violations to other agencies, and calling of bonds.
8. APPEAL PROCESS: Pursuant to RSA 677:15, an aggrieved party may appeal this decision to the Strafford County Superior Court within 30 days of the date the Board voted to approve or disapprove the application, or to the ZBA pursuant to RSA 676:5, III within 30 days of the date the Board made its decision.

Sincerely,

Shanna B. Saunders,
Director of Planning & Development
