NOTICE OF DECISION

March 7, 2013

Golick's Dairy Bar / Alan Golick
4 Dover Point Road
Dover, NH 03820

Re: Site plan for proposed seasonal ice cream shop. Case# 125 – 86 – B2 – 13

Dear Alan:

This is to inform you that the Rochester Planning Board at its March 4, 2013 meeting **APPROVED** your application referenced above.

"Applicant", herein, refers to the property owner, business owner, individual(s), or organization submitting this application and to his/her/its agents, successors, and assigns.

Precedent Conditions [Office use only. Date certified: _____ As Builts received? _____]

Surety required? _____ Surety returned? _____]

All of the precedent conditions below must be met by the applicant, at the expense of the applicant, prior to the plans being certified by the Planning Department. Certification of the plans is required prior to issuance of a building permit or recording of any plans. Once these precedent conditions are met and the plans are certified the approval is considered final.

Please note* If all of the precedent conditions are not met within 6 calendar months to the day of the board's approval – by September 2, 2013 - the board's approval will be considered to have lapsed and resubmission of the application will be required. It is the sole responsibility of the applicant (or his/her agent) to ensure that these conditions are met by this deadline. We urge the applicant to carefully track his/her progress in meeting the individual conditions. See RSA 674:39 on vesting.

- 1) Plan modifications. The plan drawings are to be modified as follows:
 - a) Final plans must be stamped and signed by NH Licensed Surveyor.
 - b) Show ADA parking spaces and ADA access to the Dairy Bar.
- 2) Plan notes. Add the following notes (or equivalent) to the plan drawings:
 - a) None at this time.

- 3)# Current Use. The subject property or a portion of it is not presently in Current Use.
- 4) State plane coordinates. The plans are to be tied into the State Plane Coordinate System or \$15.00 is to be contributed to the Monumentation Fund.
- 5) Other permits. All required state and federal permits – including State approval of the subdivision, as appropriate – must be obtained with copies of permits or confirmation of approvals delivered to the Planning Department.
- 6) The applicant shall pay any and all unpaid application fees as well as the sewer assessment fee.
- 7) Final drawings. (a) One set of mylar plus (b) six sets of large black-line plus (c) one set of 11"x17" final approved plans plus (d) one electronic version by pdf or CD must be on file with the City. *Each individual sheet in every set of drawings must be stamped and signed by the land surveyor, engineer, or architect responsible for the plans.* (The applicant need only submit additional black-line sets of drawings or individual sheets, as needed, to make five complete sets - consult the Planning Department.) At the discretion of the Planning Department minor changes to drawings (as required in precedent condition, above) may be marked by hand. Note. If there are significant changes to be made to the plans, as specified above, one full size paper check print must be sent to the Planning Department for review prior to producing these final drawings. (The primary set of plans was last received February 5, 2013).

General and Subsequent Conditions

All of the conditions below are attached to this approval.

- 1)# Recording. Not applicable to the application.
- 2) Execution. The project must be executed exactly as specified in the approved application package unless changes are approved by the City.
- 3) Approval. All of the documentation submitted in the application package by the applicant and any requirements imposed by other agencies are part of this approval unless otherwise updated, revised, clarified in some manner, or superseded in full or in part. In the case of conflicting information between documents, the most recent documentation and this notice herein shall generally be determining.
- 4) Other permits. It is the responsibility of the applicant to obtain all other local, state, and federal permits, licenses, and approvals which may be required as part of this project. Contact the City of Rochester Building Safety Department at 332-3508 regarding building permits.
- 5) As-builts. Three sets of full size (measuring at least 22" x 34") or black line paper plus one full size mylar plus 1 set of 11" x 17" plus one digital pdf copy of the **as-built site plans** (or "record drawings") stamped and signed by the Engineer or Surveyor are to be submitted to the Planning Department **prior to issuance of the Certificate of Occupancy** (or use/occupancy of the site where no CO is required). The as-built drawings must include the following language or equivalent: "This as-built drawing substantially conforms with the final plans approved by the City of Rochester Planning Board and certified by the Planning and Development Department except for the following significant modifications:....".

If no significant modifications were made simply state "none". Otherwise, itemize the modifications on the as-built or on an accompanying letter. The Department relies on the good judgment and good faith of the engineer/surveyor in determining which modifications should be considered significant (for example, minor adjustments in locations of plant materials would not be significant whereas relocation of a catch basin would be).

- 7) Any proposed work within the Sawyer Avenue ROW shall be reviewed by the Department of Public Works prior to construction.

(Note: in both sections above, the numbered condition marked with a # and all conditions below the # are standard conditions on all or most applications of this type).

Sincerely,

A handwritten signature in black ink, appearing to read "James Campbell", with a stylized, flowing script.

James Campbell,
Chief Planner
