NOTICE OF DECISION

June 21, 2012

SUR Construction
Alan Crowell
233 Chestnut Hill Road
Rochester, NH 03867

Re: Proposal to create a 5.8 acre graveled storage area for storage of various construction related materials. 206 acres of jurisdictional wetlands is to be filled with both onsite and offsite mitigation to compensate for the proposed impacts. Case # 209-24-A-12

Dear Alan:

This is to inform you that the Rochester Planning Board at its June 18, 2012 meeting APPROVED your application referenced above. The requested waivers from buffers, landscaping and screening requirements were granted.

"Applicant", herein, refers to the property owner, business owner, individual(s), or organization submitting this application and to his/her/its agents, successors, and assigns. The requested waiver from buffers, landscaping and screening requirement

Precedent Conditions

[Office use only. Date certified: 3/5/13; CO signed off _____; As-built's received? _____;
All surety returned: _____]

All of the precedent conditions below must be met by the applicant, at the expense of the applicant, prior to the plans being certified by the Planning Department. Certification of the plans is required prior to issuance of a building permit or recording of any plans. Once these precedent conditions are met and the plans are certified the approval is considered final.

Please note* If all of the precedent conditions are not met within 6 calendar months to the day of the board's approval by December 17, 2012 the board's approval will be considered to have lapsed and resubmission of the application will be required. It is the sole responsibility of the applicant (or his/her agent) to ensure that these conditions are met by this deadline. We urge the applicant to carefully track his/her progress in meeting the individual conditions. Also, site work must be substantially acted upon within 1 year of plan certification or the Planning Board approval is considered null and void.
See RSA 674:39 on vesting.

1) Plan modification. Make the following modifications to the plan drawings:

a) Surveyed property lines including bearings, distances, pins, stakes, and bounds.

b) Add the name, stamp, and NH license # of land surveyor and engineer to the plan.

✓ 2) Plan notes. Add the following notes (or equivalent) to the plan drawings:

✓ a) "For more information about this site plan, or to see the complete plan set, contact the City of Rochester Planning Department, 31 Wakefield Street, Rochester, NH 03867. (603) 335-1338."

✓ b) "All outside construction activity related to the development of this site is restricted to the hours of 7:00 a.m. to 6:00 p.m. Monday through Friday and 8:00 a.m. to 6:00 p.m. Saturday".

✓ c) "Hours of operation for this business are to remain as current."

✓ d) Add approval block on each page of drawings for signature of Planning Department. It should read: "Final Approval by Rochester Planning Board. Certified by _____ Date _____"

✓ e) "Access into the site for fire apparatus must be maintained at all times during the construction process. This is the sole responsibility of the applicant/developer to maintain this access. Please contact the Fire Department at 330-7182 with any questions about access requirements".

✓ f) "There is a 50 foot buffer requirement from wetlands under the City of Rochester Zoning Ordinance as shown on this plan. There may be no encroachment within these buffers except as permitted under the ordinance".

✓ g) "This development must be in compliance with all applicable law – including all pertinent provisions of the City of Rochester Site Plan Regulations – unless otherwise waived".

✓ h) "This project proposes to disturb over one acre of existing ground cover and meets other specific requirements related to permit criteria for EPA NPDES compliance. The Contractor is responsible for development and implementation of a Storm Water Pollution Prevention Plan (SWPPP), submission of a Notice of Intent (NOI) to EPA, inspection and maintenance of sediment control measures, documentation of maintenance activities, and submission a Notice of Termination (NOT) to EPA. The Contractor is also responsible to comply with any or all other aspects of current Federal, State and Local storm water or NPDES regulations or requirements."

✓ i) "The applicant shall obtain a Stormwater Management permit from the Public Works Department (unless determined to be unnecessary by the City Engineer) and follow the requirements of City Ordinance Chapter 50. The permittee shall prepare a written plan for managing stormwater that enters the construction site and shall present it to the inspection engineer at the pre-construction meeting. The permittee shall follow Best Management Practices to prevent erosion in areas where the soil has been disturbed."

✓ j) "An orange construction fence must be placed alongside the wetland buffer prior to the start of construction (this is not required if the required silt fence is orange)."

✓ 3) # State plane coordinates. The plans are to be tied into the State Plane Coordinate System and indicated on plans.

✓ 4) Inspections. The applicant must sign the Agreement for Payment of Inspection Fees and make a cash deposit to cover the expected costs of inspections, in an amount that is determined by the Public Works Department. (The inspections will be conducted by the City of Rochester Public Works Department or its designee. The applicant must pay for inspections -

at an hourly rate as determined by the Public Works Department of the site, including all new infrastructure serving the site.)

- ✓5) Preconstruction meeting. The pre-construction meeting agreement is to be signed by the property owner.
- ✓6) Other permits. All required state and federal permits must be obtained – including alteration of terrain, dredge and fill, as appropriate - with copies of permits or confirmation of approvals delivered to the Planning Department.
- ✓7) Drainage maintenance. A drainage maintenance agreement approved by Public Works must be executed.
- ✓8) Final drawings. (a) One set of mylar plus (b) five sets of large black-line plus (c) one set of 11"x17" final approved site plan drawings plus (d) one electronic version by pdf or CD must be on file with the City. *Each individual sheet in every set of drawings must be stamped and signed by the land surveyor, engineer, or architect responsible for the site plans.* (The applicant need only submit additional black-line sets of drawings or individual sheets, as needed, to make five complete sets - consult the Planning Department.) At the discretion of the Planning Department minor changes to drawings (as required in precedent condition, above) may be marked by hand. Note. If there are significant changes to be made to the plans, as specified above, one full size paper check print must be sent to the Planning Department for review prior to producing these final drawings. (The primary set of plans was last received 4/10/2012)

General and Subsequent Conditions

All of the conditions below are attached to this approval.

- 1)# Site work. **No site work may be undertaken until: a) all of the precedent conditions are met; b) the preconstruction meeting with City staff has taken place; c) the prominent orange fence along the edge of the wetland buffer, if any are present (referred to in precedent condition, above) is installed; and d) all appropriate erosion and sedimentation control structures are in place.** These erosion and sedimentation control measures and the orange fence must be in place prior to the pre-construction meeting in order that they may be inspected at the meeting. Contact the City Planning Department to arrange for the preconstruction meeting.
- 2) Waivers. The Planning Board granted the following waivers as part of this approval:
 - a) From buffers, landscaping and screening requirement.
- 3) Erosion control. All erosion and sedimentation control structures must remain in place and be maintained until vegetation is established or ground surface is suitably stabilized. Note that the filter fabric on silt fences must be buried at least 12" below the ground surface in order to function properly. Best management practices must be followed for wetlands protection.
- 4) Execution. The project must be built and executed exactly as specified in the approved application package unless changes are approved by the City.
- 5) Approval. All of the documentation submitted in the application package by the applicant and any requirements imposed by other agencies are part of this approval unless otherwise updated, revised, clarified in some manner, or superseded in full or in part. In the case of conflicting information between documents, the most recent documentation and this notice herein shall generally be determining.
- 6) Violations. In the event of any violations of these conditions of approval or of any pertinent local, state, or federal laws – such as those regarding erosion and sedimentation control, wetlands, stormwater management, and general site development standards – the City of

Rochester reserves the right to take any appropriate permissible action, including, but not limited to, withholding of building permits, withholding of certificates of occupancy, withholding of driveway permits, revocations of permits/approvals, referring violations to other agencies, and calling of bonds.

- 7) Other permits. It is the responsibility of the applicant to obtain all other local, state, and federal permits, licenses, and approvals which may be required as part of this project.

(Note: in both sections above, the numbered condition marked with a # and all conditions below the # are standard conditions on all or most applications of this type).

I wish you the best of luck with your project. If you have any questions or concerns, please feel free to contact me.

Sincerely,

A handwritten signature in cursive script, reading "Marcia J. Gasses". The signature is written in dark ink and is positioned above the printed name and title.
