APPLICATION FOR VARIANCE TO: BOARD OF ADJUSTMENT CITY OF ROCHESTER

DEC 22 2010

DO NOT WRITE IN THIS SPACE

CASE NO. 2011-03
DATE FILED 12/22/10

Phone No. (603) 335-3948

C. Lewis
ZONING BOARD CLERK

Name of Applicant Kenneth Peterson

Address 727 Salmon Falls Road; Rochester, NH 03868

Owner of property concerned Kenneth Peterson & Sharon Weeks
(if same as applicant write "same")

Address SAME
(if same as applicant write "same")

Location of property 727 Salmon Falls Road

Map No. 227 Lot No. 38 Zone A

Description of property 200' 895' 200'
(give length of frontage, side lines rear lines)

Proposed use or existing use affected Subdivision of the lot into two parcels with one lot having less than the required frontage and both lots having less than the required side setback.

The undersigned hereby requests a variance to the terms of Article 42.16 Section Table 2

And asks that said terms be waived to permit 1. The creation of a lot with 50'± instead of the required 150'; 2. The creation of lots with 20' side setback instead of the required 25'.

The undersigned alleges that the following circumstances exist which prevent the proper enjoyment of his land Under the strict terms of the Zoning Ordinance and thus constitutes grounds for a variance Subject tract is a large parcel (4.1 ac.) with only 200-foot frontage. Location of existing buildings makes it impossible to partition the property and maintain the side setbacks.

CRITERION FOR VARIANCE

CASE # _____

DATE _____

A variance is request by Kenneth Peterson

from Section 42.16 subsection Table 2

of the Zoning Ordinance to permit: the creation of a lot with 50'± frontage where 150' is required & the creation of lots with 20' side setback where 25' is required.

at 727 Salmon Falls Road Map 227 Lot 38 Zone A

Facts supporting this request:

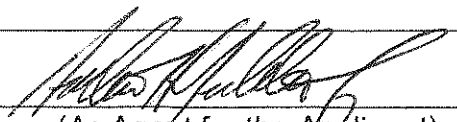

1.) The proposed use would not diminish surrounding property values because: The use of the parcel will not change as a result of this application.

2.) Granting the variance would be of benefit to the public interest because: We doubt the public interest will be affected one way or the other in this particular case except for the fact that the City will actually be able to collect more property taxes if there are two lots rather than one.

3.) Denial of the variance would result in unnecessary hardship to the owner because of the following special circumstances that distinguish it from other properties similarly zoned: There are a significant number of lots in this area that do not have 150' frontage or 25' side setback (see attached sketch).

4.) Granting the variance would do substantial justice because: It will allow existing buildings to be placed on separate lots with no adverse affect to the neighborhood or the city in general.

5.) The use is not contrary to the spirit of the ordinance because: The subdivision of this parcel, i.e., the "use" in this instance, is not contrary to the ordinance given that 1.) there is sufficient land area available for two lots despite the lack of frontage, and 2. the buildings already exist, i.e., the applicant is simply proposing lot lines between existing buildings.

Re: Request for Variance - Kenneth Peterson - Map 227, Lot 38 - Salmon Falls Rd.

Dear Ralph:

On behalf of the above referenced applicant, we hereby submit application and supporting data for a variance to the terms of Article 42.16, Table 2. Specifically, we request that the terms of said section be waived to 1.) allow the creation of a lot with less than the required street frontage (50' where 150' is required) and 2.) allow the creation of a lot line that has less than the required side building setback (20'± where 25' is required.)

The subject tract is located on the southwesterly side of Salmon Falls Road near its intersection with the abandoned portion of what is commonly referred to as Old Salmon Falls Road. The applicant owns the property as a tenant in common (rather than as a joint tenant) with Sharon Weeks. As part of a partition settlement, the parties agreed to subdivide the lot if the appropriate variances could be obtained.

The problem that exists is that the tract only has 200-foot frontage on Salmon Falls Road. To facilitate the subdivision of the tract, the applicant is requesting a variance to allow one lot to be subdivided with only 50-foot frontage on Salmon Falls Road. Access to the lot would be via the existing driveway which would be shared between both parties.

The second issue relates to the side yard setback. The lot line we need to create to subdivide the property as stipulated in the partition agreement requires relief from the side setback, namely, 20' setback where 25' is required.

Along with the site sketch we are submitting, I would call your attention to the Tax Map sketch also included. Here you will see that there are other lots in this general vicinity that have less than the required frontage (some as low as 50') and less than the required 25' side setback.

Thank you for your consideration.

Sincerely,

NORWAY PLAINS ASSOCIATES, INC.
