

## VILLAGE EDGE

The Village Edge is the least dense and most residential of the neighborhoods. The Village Edge occurs at the fringe of the Village Neighborhood, acts as a buffer to existing houses and as a transition to wetlands and open space.

Single-family homes and single-family homes with in-home offices are the only allowed use. Parking will occur on the street and in garages that set back at least twenty feet from the house façade. Where possible, garage doors will not face the street.
