**Re: 2 – Lot Subdivision at 83 Eastern Avenue; Tax Map 117 Lot 49
Case# 117 – 49 – R2 – 23**

Dear Applicant:

This is to inform you that the Rochester Planning Board at its September 11, 2023 meeting **APPROVED** your application referenced above.

"Applicant", herein, refers to the property owner, business owner, individual(s), or organization submitting this application and to his/her/its agents, successors, and assigns.

Precedent Conditions [Office use only. Date certified: _____; CO signed off? _____; As- Builts received? _____; All surety returned? _____]

All of the precedent conditions below must be met by the applicant, at the expense of the applicant, prior to the plans being certified by the Planning Department. Certification of the plans is required prior to issuance of a building permit or recording of any plans. Once these precedent conditions are met and the plans are certified the approval is considered final.

*Please note** If all of the precedent conditions are not met within 6 calendar months to the day of the board's approval – by March 11, 2024 - the board's approval will be considered to have lapsed and resubmission of the application will be required. It is the sole responsibility of the applicant (or his/her agent) to ensure that these conditions are met by this deadline. We urge the applicant to carefully track his/her progress in meeting the individual conditions. See RSA 674:39 on vesting.

- 1) Plan modifications. . The plan drawings are to be modified as follows:
 - a. Please add a note to the plan that new sewer or water service shall connect to City system.
- 2) Please provide a certified letter that the wetland area located behind the new parcel does not contain a vernal pool.
- 3) It appears that wetland buffer areas have already been impacted by construction activities. Wetland Buffers shall be marked with Conservation Overlay District tags every 50 feet along the linear wetlands buffer prior to subdivision recording. (available for a nominal fee at the Rochester Planning Office), and such markers shall be maintained in perpetuity.
- 4) Final Drawings. (a) four sets of large black-line plus (b) one set of 11" x 17" final approved site plan drawings (c) one electronic version by pdf and a CAD drawing (dwg or dgn file format) referencing NH State Plane North American Datum 1983 coordinates must be on file with the City. *Each individual sheet in every set of drawings must be stamped and signed by the land surveyor, engineer, or architect responsible for the site plans.* (The applicant need only submit additional black-line sets of drawings or individual sheets, as needed, to make five complete sets – consult the Planning Department). At the discretion of the Planning Department minor changes to drawings (as required in the precedent conditions above) may be marked by hand. Note: If there are significant changes made to the plans, as specified above, one full size paper check print must be sent to the Planning Department for review prior to producing these final drawings. Once the plan is recorded at the Registry of Deeds, submit two 11x17 recorded copies of the plan. Assessing will need an 11x17 recorded copy of the plan.
- 5) Recording. The plat, this notice of decision (per RSA 676:3 III), and deed (a deed is required if the lots are owned by two separate parties or if one lot is sold prior to recording of this plat) must be recorded together at the Strafford County Registry of Deeds within six calendar months to the date the plat is certified (e.g. if certified September 9th they must be recorded by March 9th). See RSA 478:1-a regarding plat requirements. Failure to comply with this requirement herein shall render the lot line adjustment null and void.
