

On the bid request form, the price per location for annual service, is this the annual fire alarm inspection only?

Yes on the bid request form, the price for location is for the annual fire alarm inspection. Items 13-17 are for time and material rates for work that needs to be performed on the alarms.

Also would we be responsible for several trips to help the sprinkler, ansyl and elevator vendors complete their inspections or would they be scheduled at the same time?

There are times when the elevator company will need to coordinate with the vendor to do there annual testing.
