### **SCOPE OF WORK**

The City of Rochester is requesting bids for One Dump Body, (1) Plow Equipment that will be installed on one (1) new Granite Mack 6-wheel dump truck (36,220 GVWR minimum). Bids should include an allowance for all labor, parts, materials, etc. to install the equipment on the new trucks. The City is currently soliciting bid prices for the cab and chassis via separate bid packages. The City will be responsible for delivery of the new truck to the successful bidder and will arrange to pick up the trucks once the new equipment is mounted and ready.

Detailed Bid Specifications and a Bid Form are attached. Time of Delivery is critical for the City. The Bid Form includes a line where bidders are required to provide the expected week of delivery that the equipment would be available for installation. Availability of the equipment could factor into the City's decision for selecting a vendor.

Bidders should be aware that the City may not award to the lowest bidder. The City reserves the right, in its own judgment; to make an award it feels will be in its best interest over the projected life cycle of the equipment. Bidders are encouraged to provide detailed information on their warranties along with a list of local municipal references (within 50 miles of Rochester). The City intends to check local references to verify successful equipment performance.
